

1.5 kw solar inverter factory in New-Zealand

Overview

· As a leading factory in the industry, we have designed this inverter with cutting-edge technology to provide reliable and efficient solar power conversion, Our 1. Fronius covers the entire spectrum of market requirements, from 1. Whether for a single-family home or a large photovoltaic (PV) system, the comprehensive SnapINverter portfolio contains the perfect device. Power categories ranging from 1. The SolaX single phase inverters boast a wide MPPT voltage range to allow for more energy harvesting and have a maximum input voltage of 580V, with a maximum efficiency. Inverters are considered to be the 'brains' or the engine room to your solar power system. We believe that our sun is an immensely vast resource that is the least damaging, and most effective, form of energy we have. The SMA solar technology was established in 1981 to increase the use and availability of photovoltaics. Our German company has since then advanced to become a global leader in this field.
