

200-watt solar panels in the Democratic Republic of the Congo

Overview

Indian IPP, Soleos, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). The project is set for commissioning by late 2026. The US\$ 200 million project will be located in Fipango village, within the Kipushi territory in Haut-Katanga province. This note was developed by GOGLA with the support of the World Bank Group technical team and Lighting Global Program, the Energy Sector Management Assistance Program (ESMAP), the Shell Foundation, USAID, Power Africa, The Foreign, Commonwealth & Development Office (FCDO), Sustainable Energy for. The UAE-based company SkyPower Global has bagged a contract from the Africa Finance Corporation (AFC) to install a 200-megawatt clean energy plant in DR Congo. Soleos Energy, an Indian provider of solar engineering, procurement, and construction (EPC).
