Idhal Official Website

We are the general contractor and hence we deliver all services towards the construction of turnkey PV plants, including procurement or production of all necessary building materials and parts, as well as ...

Modular design,
unlimited combinations in parallel
BUILT-IN DUAL FIRE PROTECTION MODULE

PV Inverter Cabinet for Off-Grid Systems , Integrated Power

Designed for outdoor deployment, the cabinet features weather-resistant construction, efficient ventilation or air conditioning, and options for battery and DC distribution integration. With robust ...

Grid-connected Photovoltaic

Inverter and Battery System for Telecom

Discover how a grid-connected photovoltaic inverter and battery system enhances telecom cabinet efficiency, reduces costs, and supports eco-friendly operations.

- ✓ LIQUID/AIR COOLING
- ✓ ON GRID/HYBRID
- ✓ PROTECTION IP54/IP55
- ✓ BATTERY /6000 CYCLES

For Telecom Applications

This cabinet can economically house a variety of next generation electronic equipment including telco backhaul, fiber distribution, and radio equipment for wireless applications.

Hybrid solar systems for Telecom - elgris

A solar Telecom power system is durable, reliable and convenient; just install it wherever you need power with solar and reduce diesel for telecom. There's no need to worry about grid access, fuel ...

Idhal Solar & Energy , Solar System Installers , Jordan

Company profile for installer Idhal Solar & Energy - showing the company's contact details and types of installation

undertaken.

GoodWe presented its first event about advanced solar inverter

In GoodWe Galaxy series featherweight PV building material, solar cells are packaged by integrating waterproofing material into lightweight corrosion resistant panels, resulting in an anti ...

Nominal Capacity
280Ah
Nominal Energy
50kW/100kWh
IP Grade
IP54

Best pv companies in jordan , Solar Energy Companies in Jordan

This system connects to the national electrical grid, allowing users to benefit from solar energy during the day and feed excess energy back into the grid, earning credits for the surplus ...
