

Anfengling Wind Power Generation Second Bid

Overview

The successful bidders were Offshore Wind One GmbH with a bid of €1. Find the Latest Global Wind Turbine tenders online with TendersOnTime. Our platform offers unrestricted access to eProcurement notices, eTenders, Tender results, and corrigendum updates from 600,000+ government and private tender websites, eProcurement Portals and newspapers from around the world. Tendering authorities and private. Simple bidding strategies such as point forecast or perfect forecast are pitted against two probabilistic bidding algorithms trained on historical market data and designed to account for the effects of wind power production levels on the market. A dynamic bidding procedure was conducted for each of the two sites up for auction.

Anfengling Wind Power Generation Second Bid

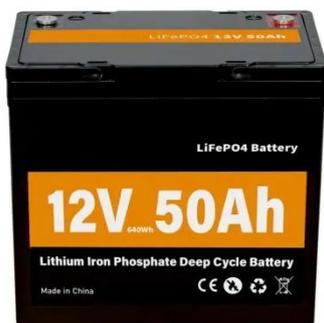

Anfengling Wind Power Generation Second Bid

The intermittent nature of wind power generation induces great challenges for power bidding in the electricity market. The deployment of battery energy storage can improve flexibility for power bidding.
