

# Asia energy storage project

## Overview

---

10 July 2025 - Trina Storage, the energy storage division of global solar leader Trinasolar, has reached a significant milestone with more than 2.4 GWh of utility-scale storage capacity under execution across the Asia-Pacific region (excluding China) as of July 2025. Spanning Australia, Japan, Sungrow and CEEC have completed the largest energy storage project in Central Asia. The combination of the shift to renewable energy and the lack of grid stability in several Southeast Asian nations indicates the need for storage technologies, a need which is starting to be recognised at governmental level. This. Tashkent, Uzbekistan, Janu/PRNewswire/ -- Sungrow, the global leading PV inverter and energy storage system (ESS) provider, in partnership with China Energy Engineering Corporation (CEEC), are proud to announce the successful commissioning of a groundbreaking Lochin 150MW/300MWh energy. Second Foundation has acquired Trinasolar's Japanese solar and storage development platform. (Illustrative Photo: Photo Credit: tamu1500/Shutterstock.
