

# Boston Energy Storage solar container lithium battery Price

## Overview

---

As of May 2025, the average storage system cost in Boston, MA is \$1690/kWh. Given a storage system size of 13 kWh, an average storage installation in Boston, MA ranges in cost from \$18,674 to \$25,266, with the average gross price for storage in Boston, MA coming in at. Ember provides the latest capex and Levelised Cost of Storage (LCOS) for large, long-duration utility-scale Battery Energy Storage Systems (BESS) across global markets outside China and the US, based on recent auction results and expert interviews. All-in BESS projects now cost just \$125/kWh as. Turning cheap daytime solar into electricity you can actually use at night just got a lot cheaper. This capability is key to achieving greater energy independence. This guide provides a clear overview of lithium-ion solar battery prices in 2025. In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration systems. The projections are developed from an analysis of recent publications that include utility-scale storage costs.
