Overview

Solar panels can ship via air, sea, rail or truck depending on needs. Transporting solar energy panels requires decarbonizing logistics expertise and extensive understanding of the solar energy industry. DSV is a world-leader in renewable energy logistics and has the solutions you need to transport your solar panels and components from production to their final. Solar panels require extra care in freight transit due to their size, fragility, and value. Solar components are large, delicate, and highly valuable, requiring specialized heavy hauling solutions to prevent damage and ensure timely delivery.
