

# Bulk procurement of extra-large capacity integrated energy storage cabinet

✓ 100KW/174KWh

✓ Parallel up-to 3sets

✓ IP Grade 54

✓ EMS AND BMS

## Overview

---

Please review all requirements and provisions of the Request for Proposal and appendices thoroughly. Only complete offers will be accepted and evaluated. Eligible Phase One bidders have been invited to submit a Phase Two offer. Con Edison and Orange & Rockland are seeking bids for scheduling and dispatch rights for distribution and transmission connected energy storage systems that will achieve commercial operation by end of 2030. The material provides guidance for different ownership models including lease, Power Purchase Agreement (PPA), or Owner Build and Operated (OBO). It also includes contracting strategies for OBO projects. Let's face it - the energy storage cabinet market is buzzing like a beehive in spring. With projects like State Grid Gansu's 291kWh solid-state battery cabinet procurement (¥645,000 budget) [1] and Southern Power Grid's 25MWh liquid-cooled cabinet framework tender [10], bidding opportunities are. Industrial Energy Storage System (ESS) Cabinets are high-capacity battery banks designed for factories, power plants, and grid-scale applications.
