

Cape Town solar Panel Grid Connection Project

Overview

Construction of the City of Cape Town's Atlantis solar photovoltaic (PV) plant, is expected to start in August this year and to be completed within 12 months. This project is the City's first grid-connected 7- Megawatts (MW) solar plant. V) power plant situated in Atlantis, north of Cape Town. It is foreseen to be the first of similar projects which are to be rolled out across the metro. The City of Cape Town announced yesterday (5 June) that 2,400 panels of the total planned 12,850 are in place to power the local grid by the end of the year. Cape Town Mayor Geordin Hill-Lewis visited the solar plant in Atlantis.

Cape Town solar Panel Grid Connection Project
