Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Increase energy storage business China Southern Power Grid ...

China Southern Power Grid Technology subscribed 200 million yuan in this investment, which was paid with its own funds. "It is estimated that the investment will not have a significant ...

RMB 180 Billion! China Southern

Power Grid Hit a New High for

According to China Southern Power Grid, the company has embarked RMB 180 billion for fixed-asset investment in 2026, marking a record high for fifth consecutive year, with an annual ...

China Southern Power Grid unit halfway through share increase in ...

As of Septem, Southern Grid Capital Holdings Co., Ltd., a wholly-owned subsidiary of China Southern Power Grid, has increased its stake in Southern Grid Energy Storage.

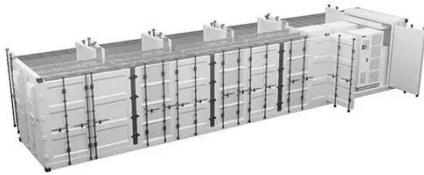

China flips switch on cutting-edge energy facility with incredible

A new energy storage plant featuring sodium- and lithium-ion batteries has opened in China's Yunnan province. The energy storage station, operated by China Southern Power Grid, is ...

China Southern Power Grid Energy Storage: Innovations and ...

As renewable energy adoption accelerates, China Southern Power Grid (CSG) is leading the charge in deploying cutting-edge energy storage solutions.

Investing approximately 9 billion yuan, China Southern Power Grid

Both parties jointly implement the requirements of the state to accelerate the construction of key energy projects and promote the development and construction of the Lijiang Yongsheng Pumped Storage ...

China Southern Grid Pledges \$9 Billion in Pumped Hydro

(Bloomberg) -- China's second-largest grid operator plans to invest 65 billion yuan (\$9.4 billion) in pumped hydro stations through 2030, as the country seeks more storage capacity to ...

China's Grid Investment Surge: A Structural Shift for Equipment Makers

Beyond the transmission backbone, a critical new frontier is energy storage.

Balancing the intermittent output of solar and wind requires massive, long-duration storage, and China Southern ...
