

Corrosion-resistant power storage cabinets for British oilfields

Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

Overview

Heavy-duty stainless steel enclosures built to survive the harshest marine conditions. Built for upstream drilling operations, midstream transportation, and downstream refining where equipment failure isn't an option. Explosion-proof enclosures. Check out our other options: COSHH cabinets, Chemical storage and Chemical containers. In stand-alone floor, undercounter, or countertop units. Regulatory compliance can be obtained at the individual product level. These blue colour-coded, flame-resistant safety storage cabinets come with adjustable shelves allowing you to re-arrange the configuration to suit your needs to safely store your materials.
