

Delivery time of 80kWh outdoor telecom cabinet for base stations

Overview

Each cabinet undergoes pre-installation, configuration, and joint testing before delivery. The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks. It integrates AC and DC power systems, intelligent monitoring units, and environmental control modules. Effective outdoor cabinet system integration is crucial for maintaining the reliability and performance of critical emergency infrastructure at base stations. To ensure optimal functionality, it is essential to follow certain do's and don'ts during the integration process. Precision sheet metal fabrication meets IP66 & NEMA 4X standards. Includes: locking door with air.
