

Does Gambia need a base station for communications

Overview

Yes, base stations need power to operate. Telecommunications in the Gambia includes radio, television, fixed and mobile telephones, and the Internet. Historically, Gamtel has been the only fixed line operator, as a result owns the most geographically comprehensive fixed electronic communications network and. o The LTE was established to provide wireless broadband connection to government institutions and officials o CPE routers are issued for offices while internet dongles are issued to officials o The Four (4) initial bases stations implemented in Banjul, Serekunda, Kotu and Abuko were upgraded o The. o The LTE was established to provide wireless broadband connection to government institutions and officials o CPE routers are issued for offices while internet dongles are issued to officials o The Four (4) initial bases stations implemented in Banjul, Serekunda, Kotu and Abuko were upgraded o The. The Gambia has used the ACE submarine fiber-optic cable since 2011, but a 2022 ACE outage knocked the country offline for over eight hours and backup links via Senegal failed, prompting plans for a second submarine cable landing in Banjul under the World Bank-funded Western Africa Regional Digital. The Gambia river runs the entire length of the country east to west, providing a vital communications link for cargo and passengers. It is navigable by ocean-going vessels up to Kuntaar (240 kilometers—149 miles—upstream) and by shallow draught vessels up to Basse Santa Su (418 kilometers or 260.
