

Double glass module electrical price

Overview

The BiMAX6 modules integrate the bifacial PERC technology with 210mm half-cut cells, achieving remarkable efficiency (up to 21.56% and this efficiency is competitive in the solar industry and is on par with the performance of leading brands such as ZNShine solar and Longi.) and the power output. Double glass solar panels are an advanced photovoltaic technology featuring two layers of tempered glass encapsulating the solar cells. Raytech as a manufacturer and supplier of high-quality double glass solar panel, solar module, and solar panel, provide you with high-quality products and solar module customization service.
