

# Dubai s new energy storage policy adjustment

## Overview

---

Consequently, DEWA's focus has broadened to include large-scale energy storage and grid modernization, highlighted by the tender for the 2 GW solar plant with a 1,000 MW/6,000 MWh Battery Energy Storage System (BESS) and an AED 7.6 billion investment in transmission. The UAE Energy Strategy 2050 aims to triple the contribution of the renewable energy and invest AED 150 to AED 200 billion by 2030 to meet the country's increasing demand for energy as a result of a rapidly growing economy. The UAE Energy Strategy 2050 - (PDF, 67. Led by DEWA, the programme allows property owners to install grid-connected rooftop or on-site solar PV systems and operate them under a regulated net metering framework. Under the Shams Dubai scheme: This is year in anticipation of the (COP28) in November. Set to take place from 23rd to 25th May, 2023 at the Sofitel Hotel in Jumeirah Beach Residence, the Energy Storage Forum's 2023 edition will be a crucial milestone in driving forward t energy storage news in the renewables market. New BESS. The recent report outlines Dubai's ambitious journey towards achieving net-zero carbon emissions by 2050, supported by significant investments in renewable energy sources. The special report provides an in-depth look at Dubai's strategies, initiatives and major clean and renewable energy projects. Between 2021 and 2024, Dubai Electricity and Water Authority (DEWA) solidified its reputation as a global leader in utility-scale solar development. This period was defined by execution and validation, centered on the Mohammed bin Rashid Al Maktoum (MBR) Solar Park. By leveraging the Independent.
