Seismic Rack , Seismic Racking ,

AMCO Enclosures

All our seismic racks and cabinets have been engineered, tested, and certified to GR-63-CORE. They are guaranteed to keep your staff and your content safe and secure during an earthquake.

The Best Seismic Server Racks , Gaw Technology

We work with companies to custom manufacture seismic cabinets to fit their requirements. Working with Juniper, we manufactured this custom seismic rack to fit their MX2020 router, which is a 45RU high. ...

Seismic Cabinets

For Optical Distribution Frame installations, DCX Seismic Cabinets are fully configurable, front-access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber ...
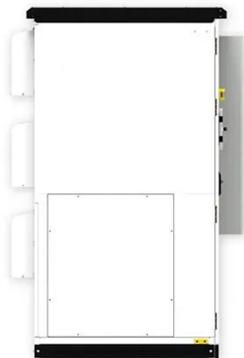

Seismic , nVent HOFFMAN

Protect equipment in any environment, regardless of geographic location. The use of seismic-rated enclosures is recommended in areas where

earthquake activity or excessive vibration is possible.

Seismic Cabinets for Harsh Environments

Our SR42UBZ4 enclosure is designed for use in earthquake zones. This enclosure features a heavy-duty welded construction, providing more security for use in unstable environments.

Z4-Series SeismicFrame Cabinet System

The Z4-Series SeismicFrame® Cabinet System delivers robust seismic protection for critical infrastructure in Zone 4 seismic zones, meeting Telcordia GR-63-CORE requirements.

Standard-Depth Server Rack Cabinet, Seismic Certified, 42U , Eaton

It is designed for secure, high density server and networking applications in IT environments that are earthquake prone

or subject to regular vibration, such as an airport or factory.
