

Enphase energy tracking

Enphase energy tracking

Monitor your energy usage , Enphase

The Enphase App provides real-time visibility into your home's solar energy production and consumption, helping you understand electricity usage and uncover opportunities to save.

Sign in to Enlighten

Enphase Enlighten -- the world's most advanced solar monitoring tool.

Track your home's energy use with energy usage monitoring

That's why Enphase customers have the option to install energy consumption monitoring . It's an added functionality that ties into your system at the electrical panel to monitor your home's energy usage.

Enphase App , Enphase

Monitor your system status from anywhere and know exactly how much energy your solar system is producing. Generate reports on energy production by day, week, month, or year.

Utility bill and Enphase App , Enphase

While your utility bill shows how much energy you've drawn from and exported to the grid, the Enphase App breaks down your solar production, consumption, and battery activity in real-time.

How do I use the Enphase app to monitor my solar production?

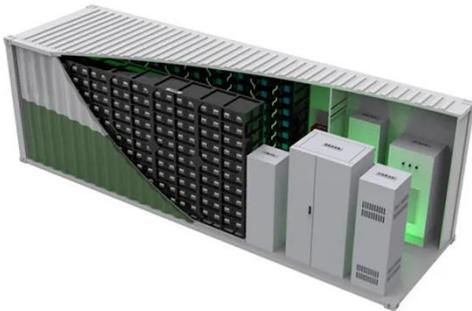

With four main pages - status, energy, array, and menu - users can get an overview of their energy usage, view trends and savings, and access detailed information about their system's performance.

Track and monitor

Working seamlessly together, they enable remote monitoring and system updates, giving system owners and

installers the ability to track energy production, monitor system health, and share performance ...
