Overview

EU ProSun Glass is representing the EU solar glass producers. We are standing for solar glass products with maximum transmittance and durability and minimal environmental. The Europe Solar Photovoltaic Glass Market is projected to witness market growth of 27. With fire and energy we produce base glass at four locations in Europe. With our high-performance solar glass for photovoltaics, solar thermal and the greenhouse sector, we are fulfilling our social responsibility and making a significant contribution to the energy transition in Europe - whether through the production of green electricity from photovoltaic modules. The push for this high specification glass stems from Europe's aggressive decarbonization agenda and expanding solar deployment across diverse climatic zones from the Nordic regions to the Mediterranean. According to SolarPower Europe, the continent installed over 56 GW of new solar capacity in.
