

Flexible photovoltaic panel unpacking tips

Overview

Before unpacking, verify the product type, power bins, serial numbers, and instructions provided on the packaging box. Avoid using unauthorized unpacking methods. Use a utility knife to carefully remove the packing belt and. The short answer is: Yes, a peeling panel can still produce power for a while, but it is living on borrowed time. Delamination isn't just a cosmetic issue; it affects output, longevity, and—crucially—safety. In this guide, we're going to skip the theoretical chemistry and answer the practical. To ensure the safety of loading, unloading, unpacking and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download relevant content from Jinko's official website. Remove the cardboard box by lifting it up. This guide will show you how to handle these solar babies like a pro (and maybe crack a smile along the way HOME /.
