

Free consultation on high-temperature resistant folding containers

Overview

Read our expert advice on choosing the right heat resistant alloy for high temperature environments, or get in touch for recommendations. High-Density Polyethylene (HDPE) is a highly versatile thermoplastic known for its excellent temperature resistance. Extreme-temperature stacking totes have reinforced bodies for stacking one on top of another. Flexcon's Molded Fiberglass Containers can be used to transport and store your products within your facility, to transport them between different facilities, and/or for sterilization/freezers. The tough, smooth surface won't chip and is mildew-proof. Secure modular units protect sensitive equipment and expand data capacity. Secure, customizable, 10' containers maximize storage in tight spaces. Insulated Products Corp offers high performance and cost-effective solutions for all your thermal packaging needs.
