

Fully automatic photovoltaic panel cleaning system

Overview

Our solar cleaning machine ensures that solar panels remain in optimal condition, maximizing energy output. Designed in full compliance with manufacturers' requirements. No. The Mamibot SolarWalker S1 is the pioneering fully automatic robot cleaner designed specifically for solar panel maintenance. Each robot is dedicated to every solar row with its own solar charging-based docking station. With the potential to improve energy output by 30% through effective dirt removal, these systems are essential for both commercial and residential applications.
