

High-performance cost-effective custom-designed outdoor photovoltaic storage cabinets

Overview

It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery technology, a high-level battery management system, and secure weatherproof housing, making it ideal for telecom towers, off-grid solar power systems, industrial parks, and smart energy projects. The Outdoor Photovoltaic Energy Cabinet is an all-in-one energy storage system with high strength, which can work under harsh environmental conditions to supply high-performance energy backup and regulation. Sustainable, high-efficiency energy storage solutions. Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal. Our weather-resistant outdoor cabinets are designed to minimize maintenance and maximize enjoyment of your outdoor living space. Season after season, our custom made cabinets and storage solutions stand up to the sun, extreme heat and cold, rain, salt, and wind without compromise.
