HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## Overview

---

The average cost to install solar panels in Colorado can vary, but typically, you can expect to pay around \$18,480 after federal tax credits. Average solar panel installation costs range from \$10,002 to \$28,576 in Colorado. Assuming an upfront purchase, it takes about 11.20 per watt, slightly above the national average due to Colorado's higher labor and permitting expenses. After. This works out to \$3. Some states, towns, and utility companies offer incentives that can help lower the cost of solar. This guide will provide a comprehensive breakdown of what that investment includes, the key factors. From Aspen to Colorado Springs, homeowners are taking advantage of generous solar incentives, rising electricity costs, and 300+ sunny days a year to lower energy bills and shrink their carbon footprint.
