

How to remove dust from solar photovoltaic panels

Overview

Wet the Panels: Use a hose to spray the panels gently with water to loosen dirt and dust. Avoid using abrasive materials that could scratch the surface. This article will guide you through the process of removing dust from solar panels, why it matters, and who should be concerned about it. Dust and dirt can block sunlight from reaching the solar cells, leading to decreased energy production. Any obstruction, such as dust, dirt, or bird droppings, can reduce. Professionals recommend cleaning your solar panels every six months or more often if you live in an area more prone to air pollution, causing dust and dirt buildup.

How to remove dust from solar photovoltaic panels
