

How to remove snow from photovoltaic panels on the roof

Overview

If you get frequent storms or long stretches below freezing, it helps to know how to remove snow from solar panels safely. The best DIY approach for most homeowners is a ground-based solar panel snow removal tool, like a solar panel snow rake with a foam or rubber head. Do I need to remove snow from my solar panels?

And if so, what's the easiest way to do it?

The short answer: In most cases, you don't need to do anything at all. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart. While the efficiency of solar panels drops in winter, proper snow removal techniques can help keep this loss to a minimum.
