

# Huawei s solar panels in Laos

## Overview

---

HUAWEI Digital Power has signed a key contract with Sepco III for The Red Sea Project to provide 400 MW photovoltaic (PV) plus 1300 MWh battery energy storage solution (BESS), which is currently the world's largest energy storage project. Electricite Du Laos (EDL) and Huawei Technologies (Lao) Sole Co. have agreed to jointly conduct a feasibility study on solar power. A Memorandum of Understanding (MOU) on the study was signed at Electricite Du Laos (EDL) headquarters in Vientiane on Monday by the Deputy Managing Director of. [Vientiane, Lao PDR, 25 September 2024] — In a collaborative effort with the ASEAN Centre for Energy (ACE), Huawei Digital Power is excited to announce two major initiatives at the 24th ASEAN Energy Business Forum (AEBF-24), organized at the Lao National Convention Centre (LCC): the release of the. The project, situated in Thakhek District and Sebangphay District of Khammouane Province, is a crucial project under the Belt and Road cooperation. It is the first large-scale solar project in Laos developed by a Chinese company. Data from the 2024 ASEAN Energy Outlook shows solar panel costs dropped 89% since. Huawei's energy storage project is advancing significantly, with distinct milestones achieved in 2023, expanding its global influence in renewable energy solutions, increasing partnerships with local utilities, and enhancing technological innovations to improve efficiency and reliability.

## Huawei s solar panels in Laos
