

Hvc uninterruptible power supply

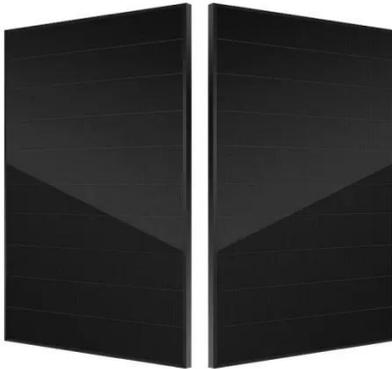

Overview

The HVC/HVR Series of high voltage power supplies were designed for use in instrumentation that must operate in harsh environments. If you have an application that requires high voltage, in extreme conditions, in a very small. HVC Panto Up power cabinet set 150 kW and 24 V power supply box, CAN2Ethernet communication, ready for sequential charging, CE certified, to be used in combination with HVC-PU set depot 100-150 kW. distance between power cabinet and charging interface is 100m. 3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data centers. The HVC Series high voltage connector is bayonet style twist lock in-line connector that provides a corona free, sealed interconnect for high voltage applications. Made from rugged plastic, the HVC Series is a compact, lightweight, affordable solution for creating highly reliable high voltage.
