Is it safe to install photovoltaic panels on a glass roof

Overview

No, solar panels won't damage your roof if installed properly. Professional installers ensure they're securely mounted, using roof-friendly methods to avoid leaks or structural issues. The answer here is almost always yes; however, the following safety considerations should be reviewed to determine the condition of your roof before moving forward. However, the initial costs and practical concerns merit consideration. Concerns about leaks, voided warranties, or long-term structural damage are common.
