Overview

The cabinets are painted with epoxy paint with a total thickness of no less than 50 microns with colors to be defined in the RAL series. The ENERPOWER painting standard is RAL 7016 (OTHERS ON REQUEST). energy storage with the Forest RB Cabinet! This iron enclosure stores up to 6x E-BOX modules, ensuring ease of use and maintenance. The cabinet's thickness is suitable for industrial, commercial & home use. Combining efficiency, safety, and scalability, it meets your power needs with a new lithium battery energy. The Battery Management System (BMS) monitors and manages the battery's performance, ensuring safe operation and longevity by regulating charging and discharging processes. The inverter converts stored energy from direct current (DC) to alternating current (AC), making it usable for household. The development of clean energy and the progress of energy storage technology, new lithium battery energy storage cabinet as an important energy storage device, its structural design and performance characteristics have attracted much attention.
