

It is not illegal to install photovoltaic panels

Overview

Installing your own solar panels can be legal and cost-effective, but navigating the regulations requires careful planning. Most states allow homeowners to install solar panels themselves, provided they obtain proper permits, follow local building codes, and pass required. Unfortunately, some states make this harder to achieve with restrictions on solar energy and its financing. Paradoxically, the states most likely to do this are some that would greatly benefit from solar power, like Oklahoma, Kansas, and Nebraska. This article will list all the states with the. Solar access laws can take different forms but include any law that protects your access to installing solar. This endeavor is subject to a comprehensive framework of regulations and.
