

Kenya Electric develops solar air conditioner

Overview

These innovative air conditioners utilize inverter technology and solar power to provide eco-friendly cooling while reducing energy consumption and electricity bills. It automatically switches to grid power when solar energy is not. Solar energy is radiant light and heat from the sun harnessed using different forms of technologies such as solar photovoltaic, solar thermal energy, solar heating and solar architecture. Kenya receives daily insolation of 4-6 kWh/m². Regions like the Rift Valley, Northeastern, Eastern, and Coast face the most extreme temperatures. In these hottest regions. Buy Solar Air Conditioner Online. Enjoy safe shopping online with Jumia. ✓ Best Price in Kenya ✓ Fast Delivery & Cash on delivery Available.

Kenya Electric develops solar air conditioner
