

# Kosovo australia solar power

## Overview

---

The agreements will facilitate connecting two new solar parks to the national grid: a 70 MW project and a 50 MW project. Both are expected to be operational by 2025, with the latter's grid connection slated for completion by March of that year. On behalf of the German Federal Government, KfW is supporting the construction of a large photovoltaic system with an installed capacity of up to 100 MW to promote decarbonisation. It will contribute to significantly reducing greenhouse gas emissions and pave the way for further investment. The Government-controlled Kosovo Energy Corp. It informed the local community that agricultural and other activities weren't allowed anymore on the designated land. 7% comes from coal-based power plants. However, there are plans to gradually phase.
