

Laomeng Photovoltaic Panel

Overview

Chinese solar manufacturer Longi has unveiled a new lightweight solar panel specifically designed for low-load commercial and industrial (C&I) applications. LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. These brands produce a sizable portion of the solar panels used in the United States, and are used in everything from huge utility-scale solar. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. China is currently the global leader in solar panel manufacturing, with a dominant 80% of the world's solar panel production.
