

Latest lithium-ion battery energy storage prices

Overview

According to BloombergNEF's 2025 Lithium-Ion Battery Price Survey, lithium-ion battery pack prices have fallen 8% since 2024, reaching a record low of \$108 per kilowatt-hour. The decline is driven by continued cell manufacturing overcapacity, intense competition, and a growing shift to lower-cost. Battery pack prices for stationary storage fell to \$70/kWh in 2025, a 45% drop from 2024, making it the cheapest lithium-ion category for the first time, according to BloombergNEF (BNEF). According to the latest survey from research firm BloombergNEF (BNEF), this trend extends a price reduction trajectory of over 93% since 2010, although the pace of. Lithium prices collapsed today as LG Energy Solution's termination of its joint venture with Stellantis sent shockwaves through the supply chain, raising fears of reduced feedstock demand. The sell-off was exacerbated by the completion of pre-holiday stockpiling in China, which caused spot market.

Latest lithium-ion battery energy storage prices

Global Lithium-Ion Battery Prices Hit Record Low at ...

Lithium-ion battery pack prices fell to a record \$108/kWh in 2025, fueled by LFP adoption and global competition.

Battery storage system prices continue to fall

That survey encompasses batteries used for a range of e-mobility applications as well as stationary energy storage. BNEF found that, due in part to a widespread shift to lower-cost lithium ...

Lithium Prices Today, Lithium Price Charts o Carbon ...

Real-time lithium pricing and dynamic price charts. Stay informed on lithium pricing and access the latest news in the lithium market.

Global lithium-ion battery pack prices fall to \$108/kWh, says BNEF

While the pace of price decreases has slowed, lithium-ion battery packs have reached a new record low in 2025. According to the latest analysis by BloombergNEF (BNEF), prices have fallen

BNEF: Lithium-ion battery pack prices fall to \$108/kWh, stationary

According to BNEF, battery pack prices for stationary storage fell to \$70/kWh in 2025, a 45% decrease from 2024. This represents the steepest decline among all lithium-ion battery use ...

Lithium Battery Energy Storage Price List: 2024 Market Trends & Cost

Discover the latest lithium battery energy storage prices and industry trends in 2024. This guide breaks down cost factors, regional pricing variations, and application-specific solutions to help businesses ...

How cheap is battery storage? , Ember

Drawing on recent auction results from Saudi Arabia, India and Italy, along with

in-depth interviews with project developers, suppliers and analysts across global markets, it captures the most ...

BNEF Forecast: Global Battery Prices to Fall to \$105/kWh in 2026

While the pace of decline is slowing, the downward trend in battery costs will continue, driven by manufacturing overcapacity, LFP technology adoption, and ongoing technological ...

Lithium-ion battery cell prices by chemistry

Average price of battery cells per kilowatt-hour in US dollars, not adjusted for inflation. The data includes an annual average and quarterly average prices of different lithium-ion battery ...

Lithium-Ion Battery Pack Prices Fall to \$108 Per Kilowatt-Hour, ...

New York, Decem- lithium-ion battery pack prices have dropped 8% since 2024 to a record low of \$108 per kilowatt-

hour, according to latest analysis by research provider BloombergNEF (BNEF).
