

# Latest on photovoltaic panel theft cases

## Overview

---

A major theft of 38 solar panels in Manzanillo, Cuba, highlights a growing national problem. Discover the details of these crimes and what authorities are doing to combat this rising threat. According to Spotter Global, theft from solar farms was expected to rise throughout 2024, with growing demand for panels making them both easier to sell and more valuable to steal. This rapid expansion has brought about a corresponding rise in the number of solar panel installations, both residential and. As of August 2025, we've crossed a major milestone: over 3,000 active cases. That's 3,000 homeowners standing up to lenders over unfair solar panel loans. In that light, five solar panel companies have been accused of deceptive practices in a new lawsuit filed by the Legal Aid Society of New York City. Credit: Photo by Murray Carpenter. A new law signed in late June will overhaul the payments for solar projects but will not impact smaller rooftop.
