Overview

From the resultant dataset, we chose the 7 Best Lithium and Battery Stocks with the highest number of hedge fund holders for each stock using Insider Monkey's database of hedge funds as of Q3 2025. We also considered the analysts' upside potential as of January 21. Lithium powers the batteries that drive electric vehicles, smartphones, and renewable energy storage. As the clean energy transition accelerates, demand for lithium remains one of the biggest long-term investing stories. Lithium prices have recovered 50% from June lows, but they are still less than one-sixth of late-2022. The soft, silvery white metal is a key ingredient in the lithium-ion batteries that propel cars without using gasoline-powered internal combustion engines. But like any market, the EV industry (and by extension lithium prices) has had its ups and downs. Market analysts are forecasting a severe supply-demand imbalance in 2026, which is expected to lead to a.
