

Maintenance contract for solar base stations in Sao Tome and Principe

Overview

The tender was published by UNDP on 24 Jun 2025 for RFQ - LTA for Provision of maintenance service for PV system. The last date to submit your bid for this tender was 29 Jun 2025. This tender is for the companies specializing in Photovoltaic cells and similar sectors. On one hand, global climate change poses a direct threat to our way of life; on the other, continued reliance on outdated fossil energy sources, such as imported diesel, is no longer sustainable. At present, the energy expenditures of São Tomé and Príncipe are high. This platform is designed to provide information and updates about São Tomé and Príncipe's upcoming solar procurement initiatives. As the country transitions toward renewable energy, we aim to create transparent and competitive processes to attract qualified international investors, ensuring energy security in Sub-Saharan Africa. Although STP's average electricity tariff of US\$0.15/kWh, aggregate technical and commercial losses is estimated at 37 percent, of which over 20 percent are technical. The Government of the Democratic Republic of São Tomé and Príncipe has received grants from the World Bank to implement the Access to Clean Resilient Electricity Project (P177099) and intends to apply part of this funding to consulting services Consultant for Preparation Preparation of Social. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh.
