

Make photovoltaic panels yourself

Overview

To build your own solar panel, you'll need to assemble the pieces, connect the cells, build a panel box, wire the panels, seal the box, and then finally mount your completed solar panel. With the effort you put into making a homemade solar panel, you can help prevent environmental pollution by reducing fossil fuel usage. If you're on a budget, here's how you can make your own. You may have even found some broken or cracked cells for sale.
