

Mali travel to install solar power generation for home use

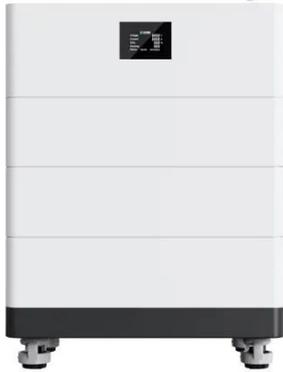

Overview

In the heart of West Africa, Mali is undergoing a transformative energy shift as it embraces solar power to light up rural communities long deprived of reliable electricity. Bakery owner Samba Diakité exemplifies this impact. Previously, KARAN, Mali (AP) — A solar power plant in this rural corner of Mali has jolted a village to life and awakened dreams of steady power in other areas of this West African nation as it sees unprecedented growth in renewable energy. Once grappling with prolonged periods of power outages, the community of Karan, home to approximately 3,000 residents, is now.
