

# Mogadishu hospital uses 120kW collapsible modular energy storage system

## Overview

---

The 20ft energy storage container solution (1MWh/200kW) we provided for the African hospital uses a PV + energy storage system, which enables the hospital to make full use of the energy storage system to store electricity during the day and. The 20ft energy storage container solution (1MWh/200kW) we provided for the African hospital uses a PV + energy storage system, which enables the hospital to make full use of the energy storage system to store electricity during the day and. As renewable energy adoption accelerates globally, Mogadishu faces unique challenges in balancing power supply and demand. Energy storage containers have emerged as a game-changer, offering scalable and efficient solutions for industries and communities. This article explores how these systems. Mogadishu, 1 October 2025: The Prime Minister of the Federal Government of Somalia, His Excellency Hamse Abdi Barre, accompanied by the Minister of Energy and Water Resources, His Excellency Abdullahi Bidhan Warsame, the Minister of Health, Dr. Ali Haji Adan, the Governor of Banadir Region, Dr. This is the reality being shaped by dedicated energy storage batteries in Mogadishu. "It's been 127 days without interruption," reports Chief Engineer Ahmed Hassan.
