

NEEQ Photovoltaic Innovation Layer

 LFP 12V 200Ah

Overview

The article conducts a comparative study on the technological innovation of PV industry between China and major PV powers to master the technological innovation structure of China's PV industry. The National Equities Exchange and Quotations (NEEQ) said. Photovoltaic (PV) industry is a strategic emerging industry in China, which provides risk resistance and autonomy for energy security by its technology innovation structure. With renewable energy demand surging 18% annually in Asia-Pacific markets, companies like EK SOLAR are leveraging this platform to expand production capacity and optimize. Since its establishment in 2006, the New Third Board evolving from the Old Third Board has rapidly developed and become an important part of China's multilevel capital market. Furthermore, it has recently achieved leap-forward development, with rapid improvement in the number of listed companies. Congratulations to Oulu Electric on successfully entering the NEEQ Innovation Layer! On May 17, the National Equities Exchange and Quotations (NEEQ) officially released the Announcement on the 2024 Third Batch of Companies Elevated to the Innovation Layer (NEEQ Announcement [2024] No.
