

# New energy storage enterprise in northwest spain

✓ LIQUID/AIR COOLING

✓ INTELLIGENT INTEGRATION

✓ PROTECTION IP54/IP55

✓ BATTERY /6000 CYCLES

## Overview

---

Spain has launched an ambitious €700 million (around \$796 million) program to increase its energy storage capacity. Spain's storage landscape is diversifying with BESS and pumped hydro projects across multiple regions, led by major utilities and new market entrants, and a connection pipeline that signals an accelerated rollout towards PNIEC targets. The Ministry for the Ecological Transition and the Demographic. Last week, Valladolid hosted AEPIBAL Day 2025, the annual meeting organized by the Spanish association for battery energy storage, AEPIBAL. 14 GWh under a European Regional Development Fund program. From ESS News Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the. Energy storage has become a key piece of the electrical future in Spain, amidst the advance of renewable energies and the progressive withdrawal of nuclear generation. The goal is to improve how Spain uses renewable energy. Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030.

## New energy storage enterprise in northwest Spain

---

### Over 2.3 GW of storage in processing and 25 projects progressing in

The Ministry for the Ecological Transition and the Demographic Challenge (MITECO) has published in the Official State Gazette a total of 41 energy storage projects --including lithium-ion ...

---

### 462 storage projects totaling 7,614 MW are being processed in Spain

The regional analysis shows that Extremadura leads the nation in development with 1,300 MW currently in the permitting process. It is followed by Catalonia, with its recently approved decree ...

### Current situation and challenges of energy storage in Spain

Parallel, galp has begun the development of two major energy storage facilities in Spain and Portugal, adding a capacity of 74 MW, with advanced battery systems that include grid-forming technology to ...

## Energy storage is growing in Spain with 3,400 MW of capacity

Spain boosts energy storage with new projects, highlighting batteries, solar hybridization and permits after the April blackout.

## Spain provisionally awards EUR839 million to 11 GWh of energy storage

Spain's Instituto para la Diversificación y Ahorro de la Energía (IDAE) has issued a provisional funding proposal for the country's first call for innovative energy storage projects,

## Spain fast-tracks nearly 500 MW of hybrid energy storage in just one

Spain has moved forward with 485.9 MW of energy storage capacity in just one month, with projects entering different stages of the administrative and environmental permitting process, ...

## Spain selects 2.4 GW of projects in energy storage tender

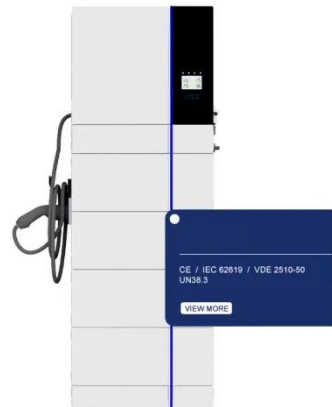

Spain's ministry for the ecological transition said on Monday it has provisionally awarded EUR 839.7 million

(USD 977.4m) in funds to 143 energy storage projects that will add about 2.4 GW ...

### Spain developing 16 GW of battery storage by 2030, accounting for ...

Spain is preparing for an unprecedented expansion in battery energy storage and now ranks as the world's second-largest market for project development, behind only the United States.

### Top five energy storage projects in Spain

Listed below are the five largest energy storage projects by capacity in Spain, according to GlobalData's power database. GlobalData uses proprietary data and analytics to provide a ...

### Spain's EUR700 Million Plan to Boost Energy Storage and Renewable ...

Spain has launched an ambitious EUR700 million (around \$796 million) program to increase its energy storage capacity. This plan will add 2.5 to 3.5

gigawatts (GW) of storage. It includes ...
