

# Nordic Battery Storage Box Processing Plant

## Overview

---

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026. We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance. Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. Actors within the. According to a report from Nordic business agencies Innovation Norway, Business Finland, Business Sweden, and the Swedish Energy Agency - the Nordic Battery Value Chain - the emerging battery industry in Sweden, Finland, and Norway builds on traditional Nordic strongholds such as automotive. Discover how cutting-edge battery processing technology in Reykjavik addresses renewable energy challenges while exploring industry trends and innovative solutions shaping the energy storage sector. Leveraging automated production and innovative technology, they deliver high-performance.

## Nordic Battery Storage Box Processing Plant

---

### Our Products

It is designed to provide a flexible and scalable energy storage solution for a variety of industrial applications including providing backup power during outages, supplying power to remote or off-grid ...

---

### SEB Nordic Energy invests in major battery storage project

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's ...

### The Nordics finding their niche

Morrow Batteries and Stena Recycling entered into an agreement in February on processing battery production scrap from the Morrow cell factory in Arendal, Norway. The scrap will ...

---

### Nordic Batteries

It specializes in advanced battery modules, packs, and energy storage systems for industrial applications in construction, maritime, defense, and power grid sectors, integrating automated ...

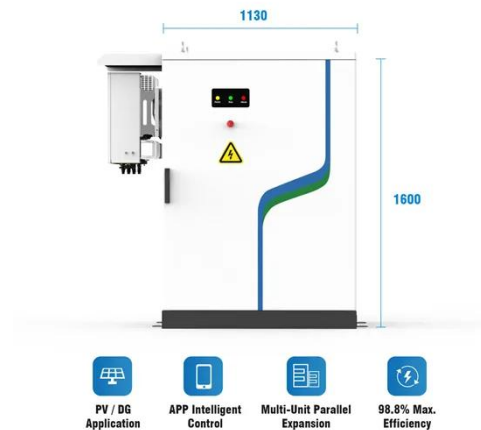

### **Battery modules for energy storage - sustainable, safe and Norwegian**

Nordic Batteries' automated production process enables cost efficient battery production in Norway. At its facility in Kongsberg, the company has developed a world-leading robotic pilot line ...

### **Swedish Energy Storage Containers: Powering Europe's Renewable ...**

Just last month, Stockholm unveiled Northern Europe's largest lithium-ion storage array - 150 connected containers storing enough energy to power 45,000 homes during winter blackouts. But how did this ...

### **The Nordic Battery Value Chain**

This report maps out the Nordic battery value chain and highlights key necessities of the Nordic ecosystem on how to grasp the opportunity of

sustainable batteries

## Gothenburg set to become a key hub in the fast-growing Nordic battery

Swedish battery maker Northvolt and Volvo Cars have joined forces and via Novo Energy are investing SEK 30 billion in Gothenburg in a state-of-the-art R& D facility and a new 50 GWh ...

## Nordic Batteries

With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy storage solution that is easily expandable as energy ...

## Reykjavik Energy Storage Battery Processing: Powering Sustainable

Discover how cutting-edge battery processing technology in Reykjavik addresses renewable energy challenges

while exploring industry trends and innovative solutions shaping the energy storage sector.
