

North American Solar Power Generation System

Overview

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. Electricity generation by the U. In our latest Short-Term Energy Outlook (STEO), we expect U. 6% in 2027, when it reaches an annual total of 4,423 BkWh. The. The American Public Power Association is the voice of not-for-profit, community-owned utilities that power approximately 2,000 towns and cities nationwide. [5] The Ivanpah Solar Electric Generating System is a solar thermal power project in the Mojave Desert, 40 miles (64 km) southwest of Las Vegas, with a gross. Explore solar resource data via our online geospatial tools and downloadable maps and data sets. supply and demand, module and system price, investment trends and business models, and. Utility-scale solar posts record growth in 2024; projected to supply most of the nation's increase in electricity generation in 2025 and 2026 The Energy Information Administration (EIA) reported that, in 2024, the United States added a record 30 gigawatts (GW) of utility-scale solar to the grid.

North American Solar Power Generation System

America's Electricity Generation Capacity, 2025 Update

This report includes generation capacity data from 50 U.S. states as well as American Samoa, Puerto Rico, Guam, Northern Mariana Islands, and the U.S. Virgin Islands.

Quarterly Solar Industry Update

Each quarter, NREL conducts a presentation of technical trends within the solar industry.

North America Solar PV Market Size, Growth Outlook 2024-2032

North America ground mounted solar PV market is estimated to grow at over 5.5% CAGR up to 2032, owing to shifting consumer inclination towards cost effective clean electricity generation combined ...

Growth of Renewable Energy in the

US , World Resources Institute

Solar deployment and electric vehicle (EV) sales broke records in 2023 and 2024. Renewables now dominate new power generation capacity, while new domestic clean energy manufacturing facilities are ...

Solar power in the United States

OverviewSolar potentialHistorySolar photovoltaic powerConcentrated solar power (CSP)Government supportSee alsoFurther reading

Solar power includes solar farms as well as local distributed generation, mostly on rooftops and increasingly from community solar arrays. In 2024, utility-scale solar power generated 219.8 terawatt-hours (TWh) in the United States. Total solar generation that year, including estimated small-scale photovoltaic generation, was 303.8 TWh. As of the end of 2024, the United States had 239 gigawatts (GW) of installed photovoltaic (ut...

U.S. Electricity Grid & Markets , US EPA

These electricity markets have opened generation for competition from independent power producers in 24 states (e.g., California, Texas and most

states in the Northeast).

Solar energy on the rise in America

The Energy Information Administration (EIA) reported that, in 2024, the United States added a record 30 gigawatts (GW) of utility-scale solar to the grid, accounting for 61% of new ...

Solar power generation drives electricity generation growth over the

We expect the combined share of generation from solar power and wind power to rise from about 18% in 2025 to about 21% in 2027. In our STEO forecast, utility-scale solar is the fastest-growing source of ...

North American Clean Energy

North American Clean Energy provides an in depth look at projections showing U.S. power generation increasing

significantly by 2050, driven by solar and nuclear expansion. This ...

Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR

Solar Resource Maps and Data Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. Solar Supply Curves View an ...

Solar power in the United States

Solar power includes solar farms as well as local distributed generation, mostly on rooftops and increasingly from community solar arrays. In 2024, utility-scale solar power generated 219.8 terawatt ...
