

Northern photovoltaic panels were destroyed by hail

Overview

Thousands of panels on a solar farm southwest of Houston, Texas, were damaged by a powerful hailstorm on March 15. Aerial footage showed rows of cracked photovoltaic cells at the Fighting Jays Solar Farm near Needville in Fort Bend County, local news channel KTRK reported on. A hailstorm earlier this month has damaged thousands of solar panels at the 350-MW Fighting Jays Solar Farm in Fort Bend County, Texas, KTRK (ABC13) reports. A recent hailstorm in southeastern Texas led to significant damage to a large solar farm, which the project's developer says is operating at a lower capacity as a result. (FOX26 Houston KRIV) NEW You can now listen to Fox News articles! An onslaught of hail in southeastern Texas that destroyed. In mid-March, a hailstorm outside of Houston crippled an enormous solar plant, breaking panels and leaving local residents concerned about metals leaking into water supplies. Solar panels are getting larger and their glass is getting thinner to reduce costs, making the panels more fragile. Last Saturday was a night Nick Kaminski will never forget. FOX 26's Randy Wallace reports more after speaking to community members.
