

# Pakistan s largest hybrid power station

## Overview

---

Oracle Power and joint venture Oracle Energy have completed a crucial transmission and grid interconnection study for their 1.3GW hybrid renewable power plant in Jhimpir, Sindh province, Pakistan. Pakistan has a total installed power generation capacity of 49,270 MW as of 13 September, 2024 which includes 28,766 MW thermal, 11,519 MW hydroelectric, 1,838 MW wind, 780 MW solar, 249 MW bagasse, 3,620 MW nuclear and 2,498 MW of net metering capacity. Conducted by Power Planners International (PPI) and funded by State Grid China, the study assessed the. The study is a key step towards integrating the plant's 800MW solar and 500MW wind power generation, with an additional 260MW BESS, into the national grid. Credit: dongfang / Shutterstock. “We are setting up the first private sector run power plant outside of the government's. “We are setting up the first private sector run power plant outside of the government's ambit,” Engro Energy CEO Yusuf Siddiqui said while speaking at the Annual State of Renewables Conference 2022 organised by the Sustainable Development Policy Institute (SDPI) and Unilever.

### Oracle Power in talks for \$1.4b financing of hybrid RE plant in Pakistan

London-based Oracle Power PLC is in talks with investors so it could start building a \$1.4b hybrid renewable energy plant in Pakistan's Ghara-Jhimpir wind corridor next year, according ...

**Oracle Power completes grid study for 1.3GW hybrid power plant in ...**

Oracle Power, headquartered in the UK, alongside its joint venture Oracle Energy, has concluded a transmission and grid interconnection study for its proposed 1.3GW hybrid renewable ...

**Oracle Power to Establish Green Hydrogen Plant in Pakistan**

Oracle Power, in collaboration with China Electric Power Equipment and Technology (CET) and Shanghai Investigation, Design and Research Institute (SIDRI), has unveiled an ambitious ...

**Pakistan: grid study for 1.3GW wind, solar and BESS project**

Developer Oracle Power and China Electric Power Equipment and Technology (CET) are looking to develop and build a 1.3GW project combining solar, wind and battery energy storage ...

**Oracle Power makes progress on its 1.3 GW hybrid renewable project ...**

The UK renewable developer Oracle Power has completed the transmission

and grid interconnection study for a project to build a 1.3 GW hybrid renewables complex in Jhimpir, in the ...

## Pakistan to get hybrid power plant

The private sector on Thursday announced their decision to set up Pakistan's first ever one-gigawatt wind-solar hybrid power plant with the aim to counter the expensive power and climate ...
