

Paris electric vehicle range

Overview

The range of electric vehicles continues to improve, although disparities remain. In 2024, entry-level models such as the Dacia Spring and the Fiat 500e offer a range of 220 to 320 kilometres, while top-of-the-range models such as the Tesla Model Y can exceed 500 kilometres on a. Since October 2024, electric cars weighing less than 2 tons can park for free in Paris on all paid surface parking spots. However, heavy electric vehicles face dissuasive rates: €18/hour in the 1st to 11th arrondissements and €12/hour in the 12th to 20th arrondissements. It perfectly combines performance, range and elegant design. Designed to offer a superior driving experience, it's ideal for those looking for an eco-friendly. In 2025, the city continues to lead Europe in clean mobility incentives, and free electric car parking is one of the most attractive benefits for EV owners. 7%, from 303,900 units in 2023 to 295,600 in 2024. Sales of plug-in hybrids followed the same trend, with 147,100 registrations, a fall of 9.
