

Photovoltaic panel installation incident

Overview

On 12 June 2023, a group of workers was deployed to install solar panels on the rooftop of a building. DES PLAINES, IL - The U. Department of Labor has cited a solar panel and battery storage company with two repeat safety violations after federal investigators found the company exposed workers to deadly fall hazards twice within three months. These conditions create hazards which can lead to serious injuries and fatalities if not addressed. Request to be notified when new PV is installed PV System Disconnects: shuts off power to the inverter.
