

Photovoltaic panel installation on Dali roof

Overview

Understanding the process is key for planning its installation on your roof. User and/or installing company has their own preferred or proprietary method of attaching the PV system to the roof. Some can be mechanically attached directly to the roof deck, while others must be mechanically attached to the rafters. However, all PV systems installed on GAF roofs must conform to state. Solar panel installation costs range from \$15,000 to \$30,000 for an average American home, with a payback period of 6 to 10 years depending on your state's incentives and sun exposure.
