

Photovoltaic panel installation sprinkler drawing

Overview

Provide an architectural drawing and riser diagram for the homeowner showing the planned location for future photovoltaic and solar hot water system components. DWG format available upon request. Photovoltaic modules installed on a pitched roof or facade occupy an area of about 8 m²/kWp. These technical documents are the DNA of any solar installation, containing everything from structural details to electrical schematics. Also known as a solar array layout or solar PV layout, a solar panel layout drawing is a key component of a solar plan set.
